## ***Song On My Lips, Jazz Greats Were My Mentors***

an inspiring new book by Stephen Botek. The book takes an inside look at jazz legends from the 40s and 50s and features biographies and photographs of legendary musicians like Artie Shaw, Benny Goodman, Dizzy Gillespie and Maynard Ferguson and also includes a foreword by the author's mentor Buddy DeFranco.

*As a performer of that era, I whizzed through life relying on instinct as well as study. Steve's take on things included another component — detailed analysis of the often complicated people in the sometimes complicated world of music. I invite you to read this book and hear the music. -- Buddy DeFranco*
