2010 – 2012 Le Bistro de Paris

Folly Bistro is a hilarious account of two years in the life of a French restaurant in Vancouver's West End. The hopes and ambitions of the self-effacing owner are brought down to reality by bureaucracy, outlandish egos and chaos in the kitchen. Dealing with the strong personalities of staff as well as the pressure to put burns in the seats makes for a partly cautionary tale.

A great read: real characters and no holds-barred honest expose of the trials and tribulations of becoming a restaurateur, all told with great humour. Compulsory reading for anyone thinking of getting into the business, and fabulous entertainment for those of us who just enjoy eating out and might wonder what is going on behind the scenes.
